

## IUCN in action - Monitoring workshop: the implementation of Regional Work Plans

### Agenda

**Date:** 28<sup>th</sup> September 2022

**Time:** 11:00 -12:30 CET

**Venue:** Museo Alborania (Palmeral de las Sorpresas Muelle 2), in the centre of Málaga, Spain

**Background:** *During this session we will explore ways to enhance joint action among IUCN Members, especially through National Committees, in monitoring the implementation of the IUCN Europe Work Plan 2021-2024. Based on the preliminary exercise conducted by the IUCN Spanish Committee, participants will have the opportunity to discuss and jointly shape this innovative collaboration mechanism. This will include a focus placed on the relations between the work plan thematic areas and relevant IUCN resolutions from the latest World Conservation Congress. IUCN members from all regions (including East Europe and North Africa) are welcome to join this discussion. The outcomes are expected to enhance ownership of the IUCN Nature 2030 Programme, respond to IUCN's Europe commitment to monitor the implementation and actions in the region, and support an increased coordination of IUCN action in the region overall.*

#### Draft Agenda:

- Introductory remarks (5 mins)
  - Sonia Castañeda Rial, Fundación Biodiversidad, IUCN Councillor
- The Spanish example: highlighting members' contribution to IUCN's programme (15 mins)
